### Overview: -

We at Enterprise Credit Union are here to provide you, our members, with savings and loans that meet your needs. We are part of the community and are here to support you financially, encouraging you to save and borrow sensibly and in a way that you can manage. To do that we need to know a little about you and to hold information that allows us to: -

- ✓ make timely and informed decisions that do not cause hardship.
- ✓ help you to manage your money well.
- ✓ provide the products and services you want and need.

Holding information or data about you means that we are classed as a data controller, and we are subject to all of the data protection regulation. We are registered with the Information Commissioners Office or ICO (the regulator for data processing) under the reference Z5075264.

[Information Commissioners - Data protection register - entry details \(ico.org.uk\)](https://ico.org.uk)

Note references to GDPR refer to the UK Regulation not the EU version.

We work hard to keep your information confidential, safe and ensure that it is accurate and up to date. We only hold the data that we need, to provide you with our products.

We may share your data to provide the services but will never sell it on for other firms to market their products to you and when we do share it, we will limit the information to what is needed, ensure that it is secure, used only for the purpose intended and is destroyed once the required task has been completed.

### Collecting Information and Keeping it Accurate: -

When you join Enterprise, we ask for basic information to open the account, for identification purposes and to allow us to manage your share account. As time goes on you will probably want other products such as loans or different savings accounts and we may collect additional information from you via application forms, documents and when communicating with you.

When your circumstances change, such as amending your address, phone or e-mail, you should advise us, and we will update our records to keep them accurate.

We collect and update your records from: -

- Applications for products & services.
- Verbal contact in person or via telephone calls.
- Written communication such as letters, or electronic communications such as e-mail or fax.
- For transactions such as withdrawals.
- Interaction via the website and App using cookies.
- Payroll if you pay direct from salary.
- Credit reference agencies and open banking providers when you apply for a loan.
- Identification documents.

### What Information do we Hold?

We collect personal data in order to provide you with the services we offer. We will never knowingly collect or process unnecessary data. The data we hold for members includes: -

- Personal details: - Name, date of birth, gender where offered, next of kin for beneficiary purposes.
- Contact details: - Address, e-mail, telephone numbers.

- Credit reference agency and open banking details when you apply for a loan.
- Payroll details if you save directly from your salary.
- Transactions on your account.
- Notes – we may record notes on our records of information you have provided us with that will help with running your account.
- Identification details

We hold this information so that we can provide the savings and loan products for you and to ensure that we are able to confirm that it is you we are dealing with, prevent fraud, make accurate and correct assessments, react quickly to your needs and requests, and always act in a professional and ethical way when we interact with you. The lawful basis for holding your data comes under one of those listed below.

## Lawful Basis: -

Your data will be processed in line with the GDPR regulatory definitions on the lawful basis. There are others but most would come under the four listed below: -

- 1 - Contract** Upon joining we enter into an agreement. You agree to abide by the terms & conditions, and we agree to provide some financial services. To allow us to undertake those services, we need to hold your data. When you apply for a loan, we both enter into a contract which defines the terms. Any other products you apply will similarly have contracts to define the agreement.
- 2 - Legal obligation** Credit unions must comply with many regulations in order to safeguard you, your data and your funds. These require us to hold and retain your data whilst running your account and some records after closure. Where legislation such as the Cooperative and Community Benefit Society Act or regulation, principally from the PRA and FCA but also from the like of the ICO for data protection we have a legal obligation to collect and often retain data.
- 3 - Legitimate interests** As a financial services provider you will expect us to react quickly and efficiently to your requests. To do so we must hold up to date and accurate data records. Legitimate interest refers to where the processing is necessary to provide the services. An example could be holding your bank details so that we can process share withdrawals and loans.
- 4 - Consent** From time to time we like to contact you, maybe to send out newsletters to keep you informed of what is happening within your credit union or to let you know about new products and services. This is entirely optional so for this we require your consent. You can withdraw your marketing consent at any time simply by contacting us and letting us know that you do not wish to be contacted in this way. We also ask for consent before using Open Banking when assessing a loan application.

## Retaining Information: -

Enterprise is a Credit Union and a Mutual Company owned by you, our members, and as such comes under some different regulation to most companies. These regulations such as the Cooperative and Community Benefit Societies Act 2014 require that we retain some information even after you close your account including name, contact details and transactions. We retain other information such as loan documentation for 6 years after repayment in case there is a query post account closure.

We do retain information but ensure that, like all member data, it is held securely, and confidentiality is always maintained.

You have the right to ask us to erase your data, as defined below, but we would still need to retain some to meet our legal obligations.

## Sharing Data: -

To provide you with our services and meet our commitment to ensuring they meet your needs and do not cause you financial hardship, we must, at times, share some of your data with other firms and external agencies. As a

financial institution we are required to provide regulators with data and also, to help safeguard you and ourselves in the prevention of fraud.

Your data will only be shared in line within the Lawful bases described above and we will ensure that the data is secure and not used for any alternative purposes. If it is shared or stored outside of the UK or EEA we will ensure that it is secure and only used for the specific purpose of maintaining your account and providing services, in line with the GDPR and Data Protection Act 2018.

## Credit Reference Agencies (CRAs)

We use CRAs to provide electronic identification for new members. This is a very simple and efficient way of undertaking the legal requirements and prevents the need to ask for additional documentation from you which can be slow and cumbersome.

We also use them for undertaking loan assessments. We would not wish you to enter into loan with us that would cause you financial difficulty and that you cannot afford. A CRA search helps us review your finances and provides us with a much fuller picture, often without needing further information from you.

Provision of the above service requires us to also report on the performance of loans.

The lawful basis for this is twofold under legitimate interest and your consent when you apply for membership or a loan.

These firms will be compliant with the Credit Reference Agency Information Notice (CRAIN) which ensures strict use and storage of data. The details can be found on each firm's website, for example [Credit Reference Agency Information Notice \(CRAIN\) | Experian](#)

The CRA we use will depend on what we use it for and may change from time to time. The main CRA details are below: -
